Account Page: Remove 'Daily' from job role dropdown

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Remove 'Daily' from the job role dropdown on the account setup page and anywhere else it appears in the system. 'Daily' is not a valid job role and should not be selectable during team member account creation.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Job Roles: Enable task editing from job roles page

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Fix the issue where clicking on a task from the Job Roles page does not allow the user to edit it. Tasks should be editable when accessed from this page.

Screenshots (1)

Screenshot — Image 1

The screenshot shows the 'Job Roles' page in the TaskR app. A red box highlights the dropdown menu showing '31 tasks — 1 selected'. Below this is a table of tasks. The table has columns: TITLE, PROG., JOB ROLE, PROJECT, PRIO., DIFF., ASSIGNEE, TIME IN, HTC, and ?. The tasks listed include 'Manager morning call', 'Check emails/team progress (fri, may 8)', 'Manager morning call (thu, may 7)', 'Check emails/team progress (Thu, May 7)', 'Assign daily tasks to managers for red team', 'GON-Check Jur's onboarding daily', 'Loom Video: Daily Completed Tasks Walkthrough', and 'BSI Trump Quitting Stocks) Review Chad's SEC 3.1 markup'.

TITLE	PROG.	JOB ROLE	PROJECT	PRIO.	DIFF.	ASSIGNEE	TIME IN	HTC	?
Manager morning call	100%	Daily	Miscellaneous	3.0	SIMP	Vy Nguyen	1h30min	—	—
Manager morning call (fri, may 8)	100%	Daily	Miscellaneous	3.0	SIMP	Vy Nguyen	1h45min	—	—
Check emails/team progress (fri, may 8)	100%	Daily	Miscellaneous	3.0	SIMP	Vy Nguyen	45min	—	—
Manager morning call (thu, may 7)	100%	Daily	Miscellaneous	2.0	SIMP	Vy Nguyen	1h30min	—	—
Check emails/team progress (Thu, May 7)	100%	Daily	Miscellaneous	3.0	SIMP	Vy Nguyen	1h	—	—
07 MAY AM Manager x Asst Call	100%	Daily	Miscellaneous	3.0	SIMP	Chadlyn Cundangan	2h	—	—
Assign daily tasks to managers for red team	100%	Daily	Taskr App	1.2	MOD	Chadlyn Cundangan	30min	—	—
GON-Check Jur's onboarding daily	100%	Daily	Ongoing Projects (Parent) \ Ongoing Operations	3.0	MOD	Chadlyn Cundangan	—	—	—

Punch In/Out: Prevent auto-logout on incognito sessions

Timestamp:

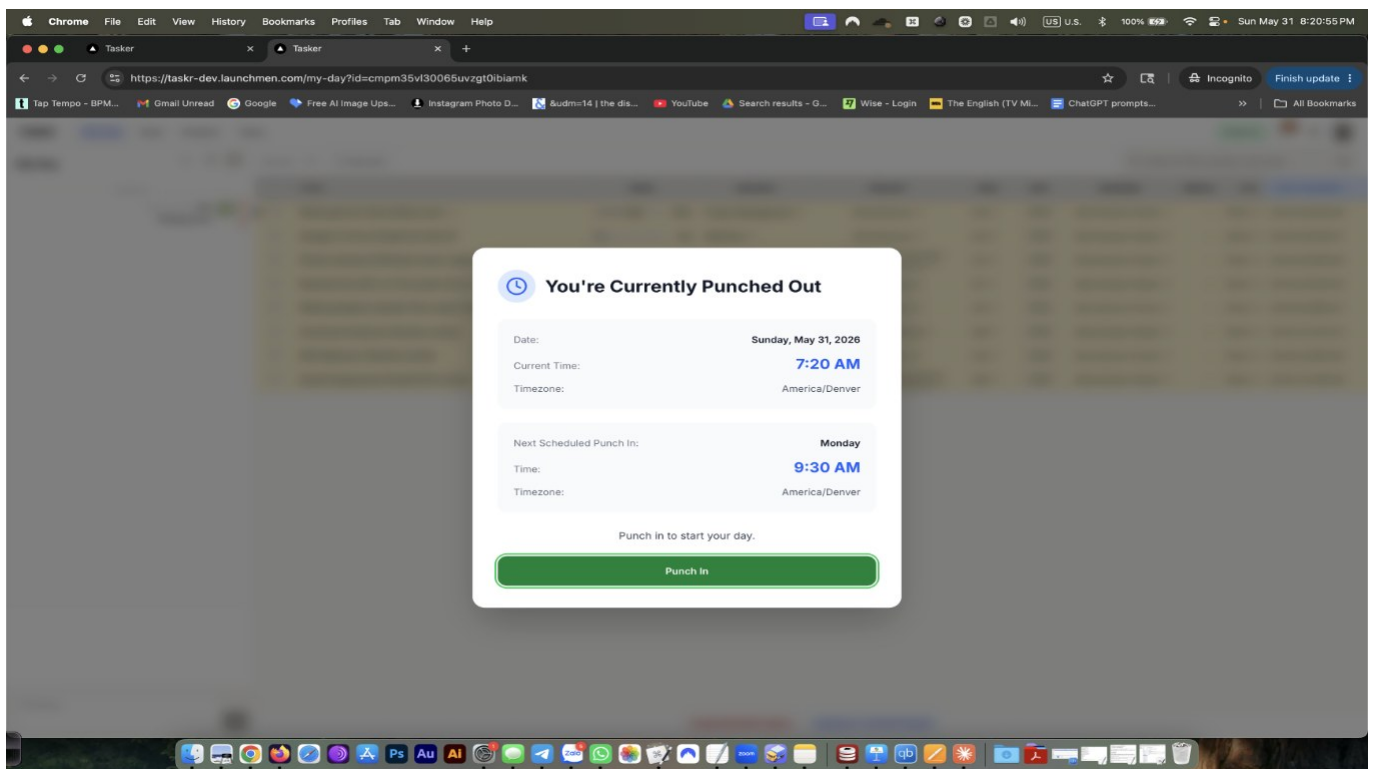

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Fix the bug where users are automatically logged out even when using an incognito window. Users should remain logged in during active incognito sessions without being auto-logged out.

Screenshots (1)

Screenshot — Image 1

%f https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Projects Page: Restrict project visibility to assigned members

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Team members should only see projects they are involved in on the Projects page. Viewing rights must be assigned by the project creator, an admin, or an executive, even if the team member has no active tasks in that project.

Screenshots (1)

Screenshot — Image 1

The screenshot shows the Taskr web application interface. The sidebar on the left displays project details for 'Misc. LaunchMen Projects'. The main area shows a table of projects. A red arrow points to the 'TEAM MEMBERS' section in the sidebar, which lists 'Mars Burden (Team)'. Red text annotations are overlaid on the image:

- 'This should not be possible because this profile is not currently a manager or a lead.'
- 'A team member can only see the projects that they are involved in. No need to see other projects on the list.'

https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Projects: Display project name in stats section

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

When a user clicks on a project, the project's name must be reflected in the stats section. Without the name, the stats are shown out of context and are not meaningful.

Screenshots (1)

Screenshot — Image 1

The screenshot shows the Taskr web application interface. The sidebar on the left has 'Projects' selected. The main content area displays a table of projects. The first project is 'Misc. LaunchMen Projects'. The stats section on the left shows 'TOTAL PROJECTS 1' with a breakdown of 'On Hold' and 'Completed' projects. A red arrow points from the 'Projects' sidebar item to the 'Misc. LaunchMen Projects' row in the table. Another red arrow points from the same row to the stats section. A red text overlay says: 'This needs to be reflected as projects for Mars the person who is looking at it from a team member access level.'

PROJECT NAME	MILESTONES / PROGRESS	CLIENT	GRAVITY	INT/EXT	TASK TOT.	TASK PTS.	POINT MGR.	TEAM	APPROVAL	7+

Punch In/Out: Prompt authorization when staying past logout time

Timestamp:

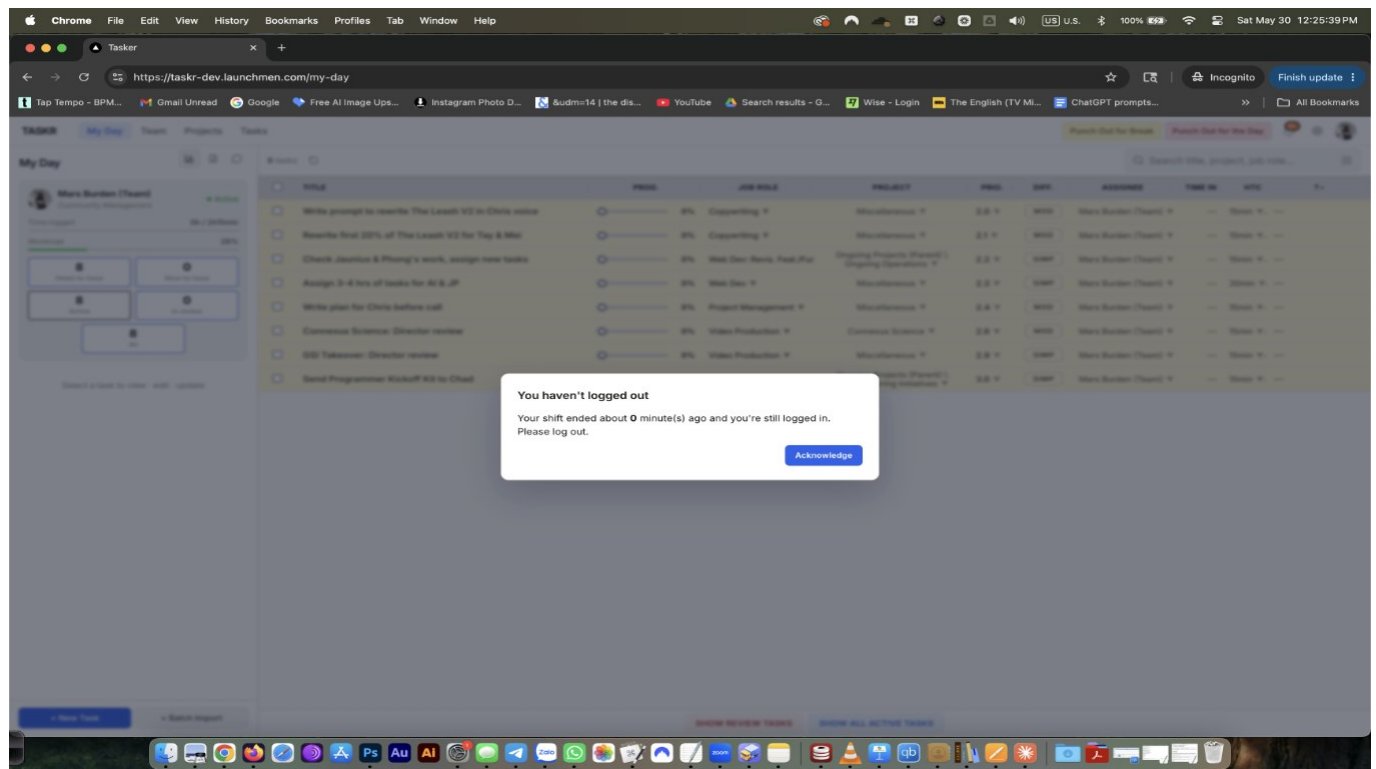

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

When a team member stays past their scheduled logout time, they must be prompted to select the manager, admin, or executive who authorized them to stay, or declare they forgot to log out. This declaration should be logged in their activity report and affect bonus calculations.

Account Info: Fix non-functioning cancel button in payment setup

Timestamp:

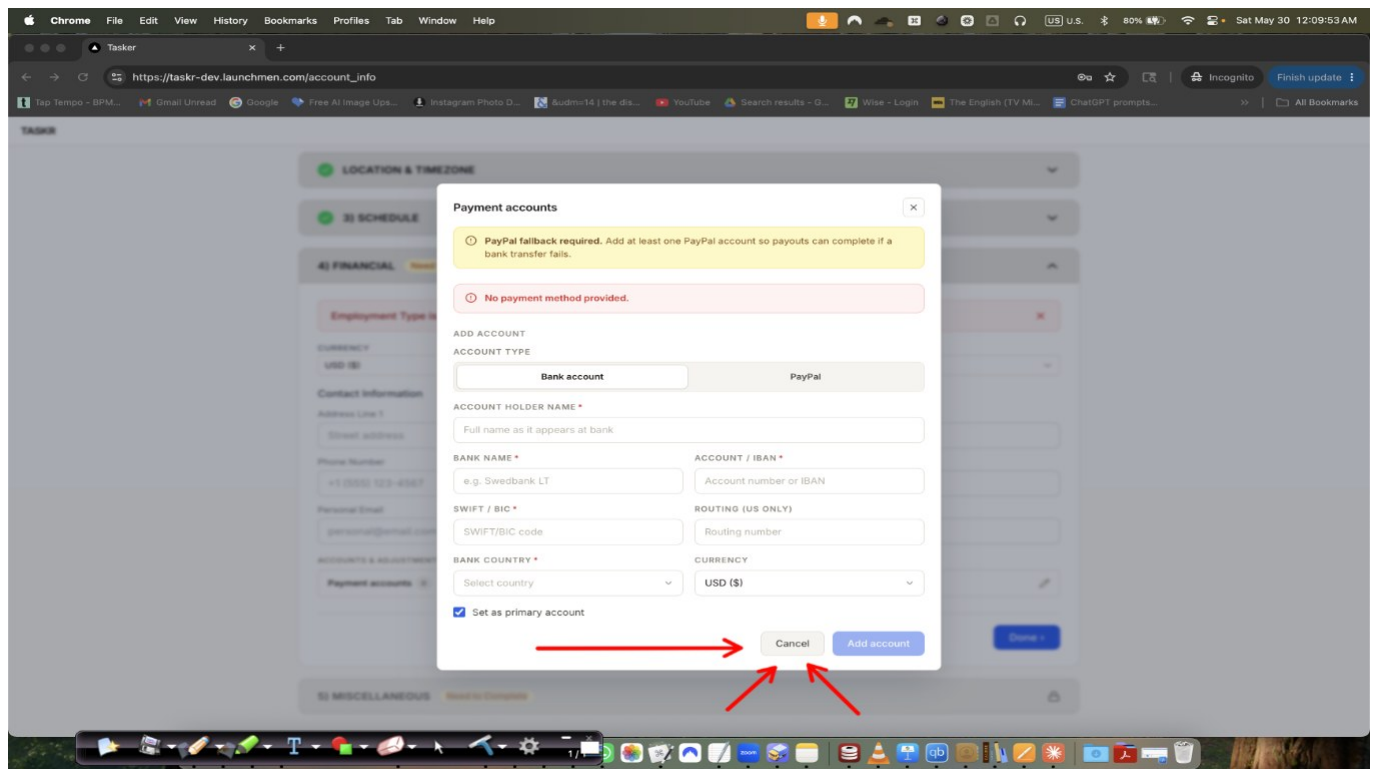

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The 'Cancel' button in the payment account portion of account setup does not function and does not close the window. Users are forced to use the X button in the upper right corner instead. The cancel button must be fixed to properly close the dialog.

My Day: Fix inaccurate 'Tasks in Review' count

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The 'Tasks in Review' count displayed on the My Day page is inaccurate. It must be corrected to match the actual number of tasks currently in review status.

Tasks: Add drag-and-drop to convert task into subtask

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Allow users to drag and drop a task onto a super task to make it a subtask. Each task should display a three-dot vertical drag handle icon to facilitate this drag-and-drop interaction.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Account Page: Set default display name format and uniqueness rules

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

If a team member does not fill in the 'Goes By' field, their name should default to given name plus family name initial (e.g., Michael R). If 'Goes By' is set but too generic, append the family initial. AI should detect duplicate/ambiguous names, and no two team members can share the same 'Goes By' name — first come, first served.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Account Page: Add compensation model and holdback setup fields

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Add fields to the account setup for choosing the compensation model (projects, regular hourly, retainer, or salary) and configuring the holdback amount, frequency, and milestones.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Account: Implement Quickstart and full profile completion modes

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

All team members must have two modes: Quickstart and full profile completion. First payment cannot be authorized until all information is filled out, including adding an avatar.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Account: Add potential name misspellings field for transcription accuracy

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Admins or managers must be able to add potential misspellings of a team member's name to their account. The system should use these alternate spellings to better interpret transcribed or human-misspelled names and suggest the correct team member.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Punch In/Out: Remove automatic system punch-out behavior

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The system should not automatically punch a team member out. Remove this automatic logout/punch-out behavior so that users remain logged in until they manually punch out or go through the authorization flow.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Tasks: Fix progress bar overlapping number when column resized

Timestamp:

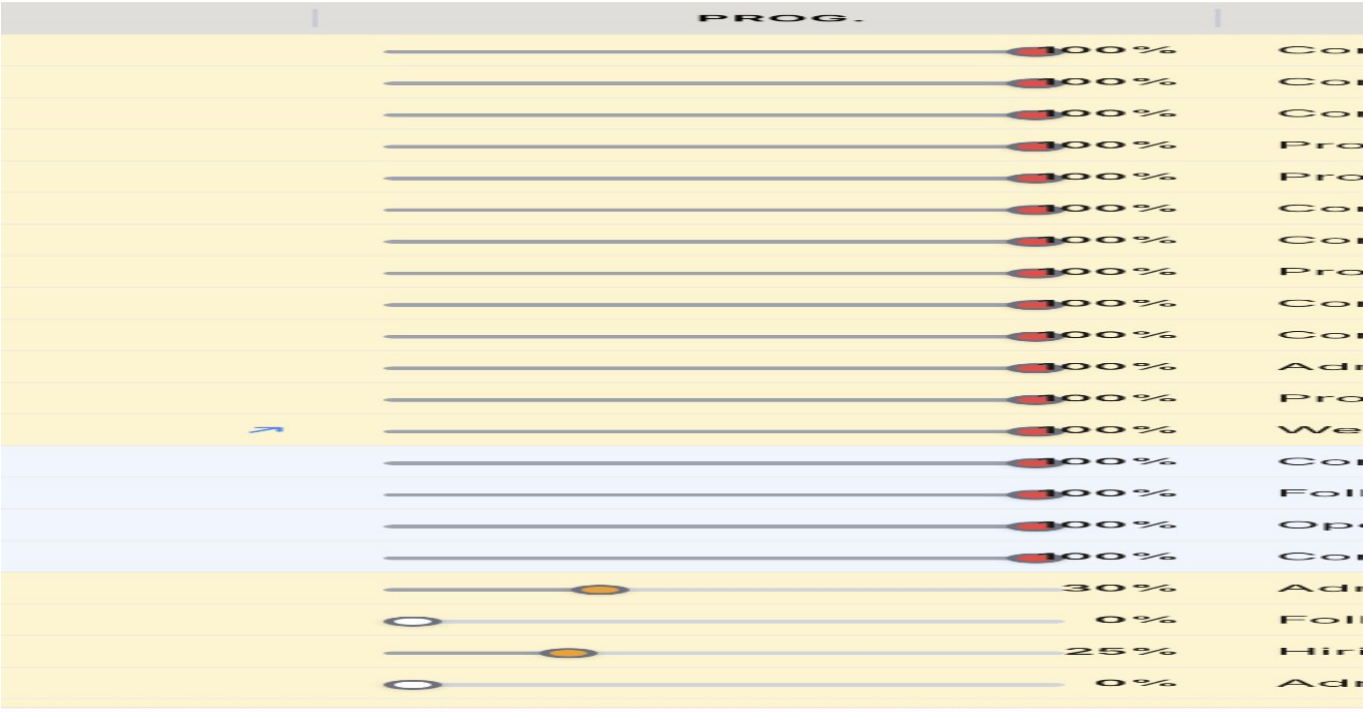

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

In the Tasks table, the progress column overlaps the numeric value with the progress bar when the column is resized. This visual bug needs to be fixed so both the number and bar display correctly at any column width.

Screenshots (1)

Screenshot — Image 1

% https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Team: Suppress account-completion alerts for inactive members

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

If a team member is marked as inactive, alerts reminding them to finish their account setup should not be displayed. These alerts are irrelevant for inactive members and should be suppressed.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Team: Move compensation type from Financial to Responsibilities section

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The team member's compensation type is currently in the Financial section, but it should be in the Responsibilities section because it is set by an Admin, not a Financial Manager.

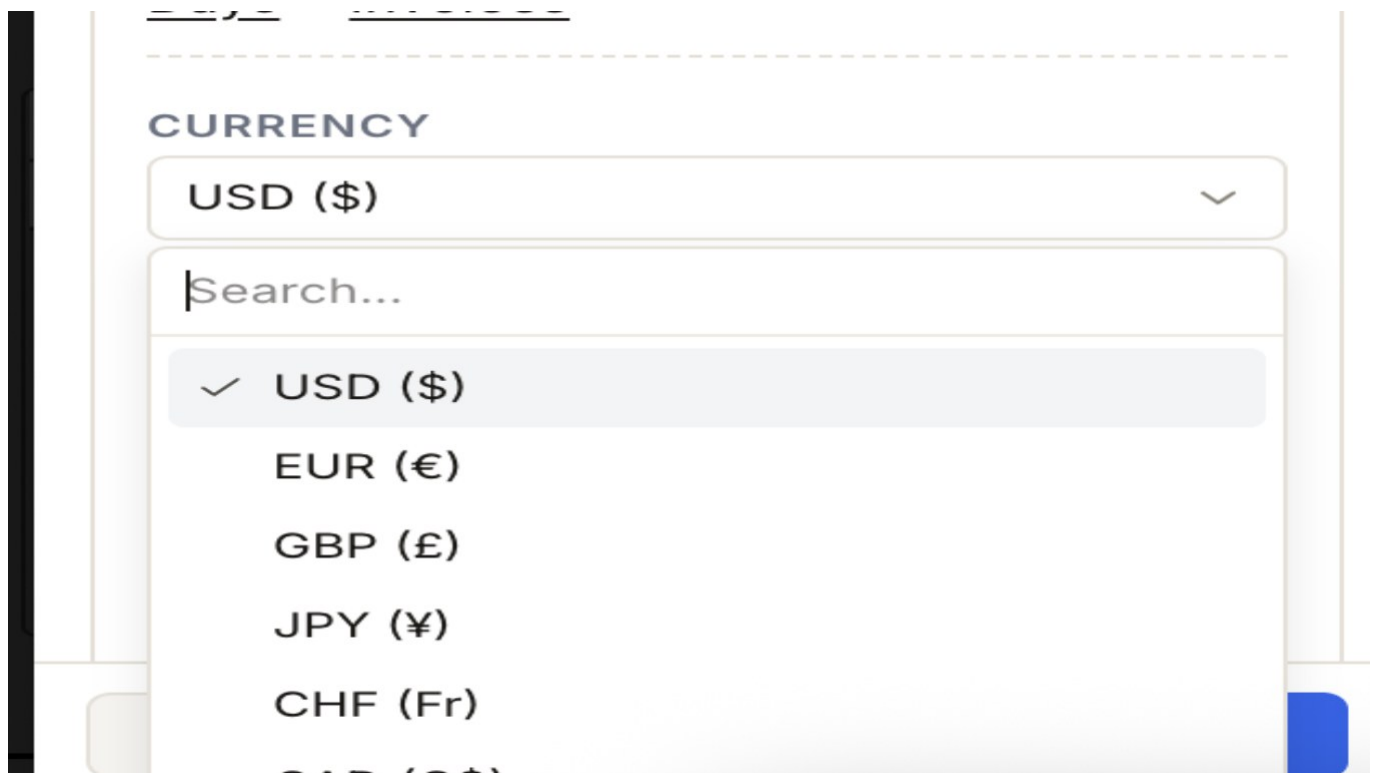

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Team: Make currency list searchable by country name**Timestamp:****Loom Link:** https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0**Description:**

The currency dropdown must be made searchable and organized by country name rather than currency code. Most users will not know currency codes (e.g., PHP for Filipino Peso) and the current implementation is not user-friendly.

Screenshot — Image 1

https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Global: Add table refresh icon to all Panel B action bars

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Every table across the entire site needs a refresh icon added to Panel B (the action bar). This should be applied globally to all tables, not just specific pages.

Screenshots (1)

Screenshot — Image 1

The screenshot shows a web application interface with a table of projects. A red arrow points to a refresh icon in the table's action bar. A red text overlay reads: "There should be a TABLE REFRESH on ALL tables".

Punch In/Out: Implement authorization flow and manager notification for overtime

Timestamp:

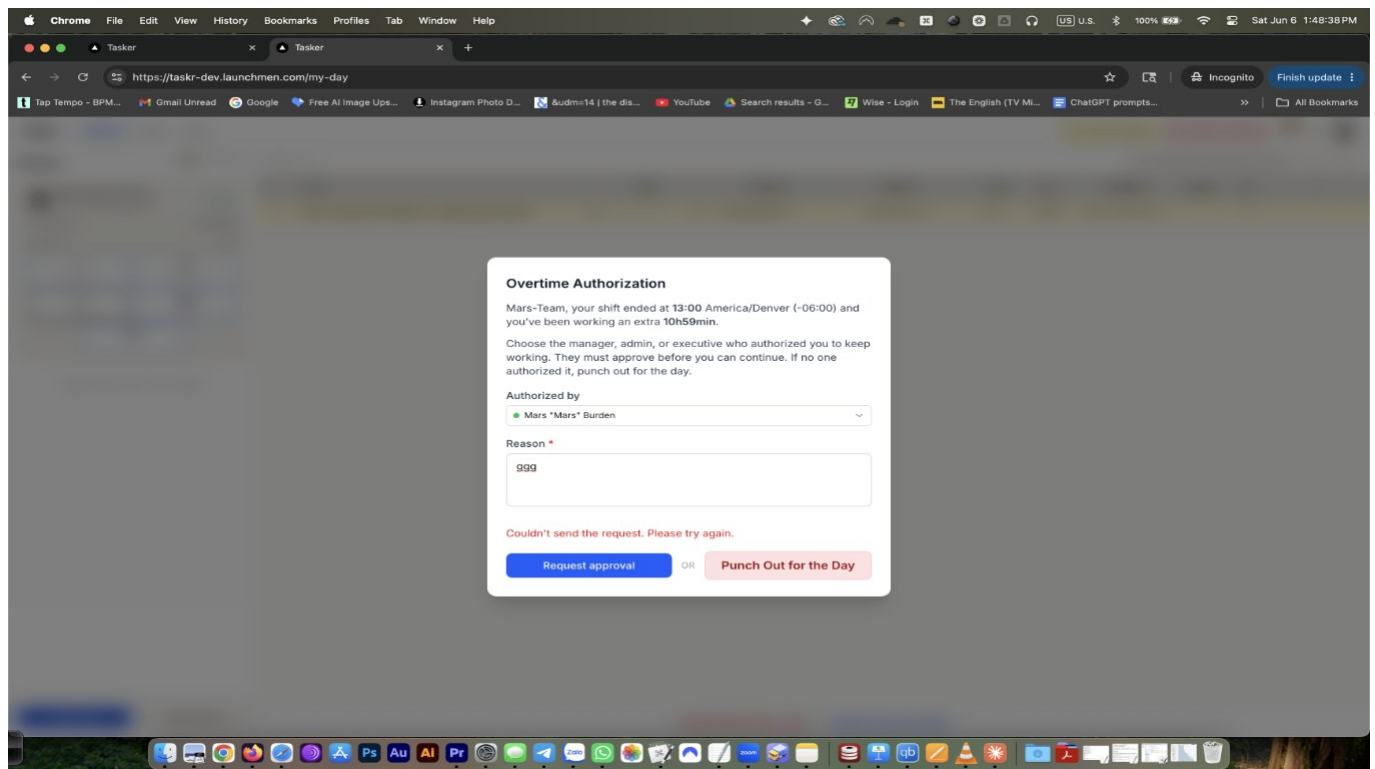

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Users who remain logged in past their logout time must declare who authorized them to stay. A notification is sent to the claimed authorizer and remains pending until they confirm or deny. If denied, the incident escalates to the admin or executive the team member reports to.

Screenshots (1)

My Day: Remove verified-complete tasks from list immediately

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

When a manager/admin/executive selects multiple tasks and verifies them as complete via the thumbs up icon, all checked tasks should be immediately removed from the current list and moved to the 'Verified as Complete' list. Currently the group does not get removed.

%[\https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Admin: Fix highlighted items in admin dropdown menu

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Items in the admin dropdown menu are incorrectly highlighted by default. They should only be highlighted on hover, not permanently. This is a display/styling error that needs to be corrected.

Screenshots (1)

Screenshot — Image 1

The screenshot displays the TASKR application interface. At the top, a navigation bar includes 'TASKR', 'My Day', 'Team' (selected), 'Projects', 'Tasks', and 'Admin' with a dropdown arrow. The 'Team' section is active, showing a 'MEMBERS' summary with 19 total members: 14 Online, 1 Break, and 4 Offline. Below this, 'AVG WORKLOAD' is at 121% and 'AVG TASK PTS' is at 2.0 pts. A message prompts the user to 'Select a member to edit, or add a new one.' The 'Admin' dropdown menu is open, listing: Dashboard, Team (highlighted by default), Clients, Job Roles, Onboarding Review, Financial Approval, and Schedule Approvals. The background shows a table with columns for 'PUNCH' and 'In/Out' status, with entries for 'DEV HOLDING TANK' and 'Nguyen Huong'.

https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

My Day: Set default sort order for tasks in review to date/time completed

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

When the manager clicks 'Show Tasks in Review' on the My Day task table, tasks should appear sorted by the most recently marked-as-complete date/time by default. This sort order should apply without any manual selection.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Admin: Add sort and action icon functionality to all task lists

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

All task lists on the Admin page need sort and action icon functionality, consistent with all other tables in the system. Chad should be consulted for the complete list of required tables.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

My Day: Fix priority number input to accept manual decimal entry

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The priority number input field on My Day currently only changes via up/down arrows and does not accept manual keyboard entry. It must be updated to allow users to manually type a whole number or decimal value.

Screenshots (1)

Screenshot — Image 1

The screenshot displays the 'My Day' view in the Taskr application. On the left, a task form for 'Chadlyn's Day' is visible. The 'PRIORITY (1.0-4.9)' field is highlighted with a red box and contains the value '3'. Below this field, a red banner indicates a 'MAJOR GAIN'. The right panel shows a list of tasks under the heading '4 tasks'.

My Day: Require HTC estimate before allowing progress on a task

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Users must not be able to mark progress on a task unless an HTC (Hours to Complete) estimate has already been assigned. The system should block progress updates until an HTC value is set.

Screenshots (1)

Screenshot — Image 1

The screenshot shows the TaskR app interface. On the left, a sidebar displays task details for 'Chadlyn's Day', including a description, priority, and assignee. The main area shows a list of tasks with columns for TITLE, PROG., JOB ROLE, PROJECT, PRIO., DIFF., ASSIGNEE, TIME IN, HTC, and DATE COMPLETE. Red arrows point to the 'TIME IN' and 'HTC' columns, indicating that these fields must be populated before progress can be marked.

Projects: Hide inactive team members from all member dropdowns

Timestamp:

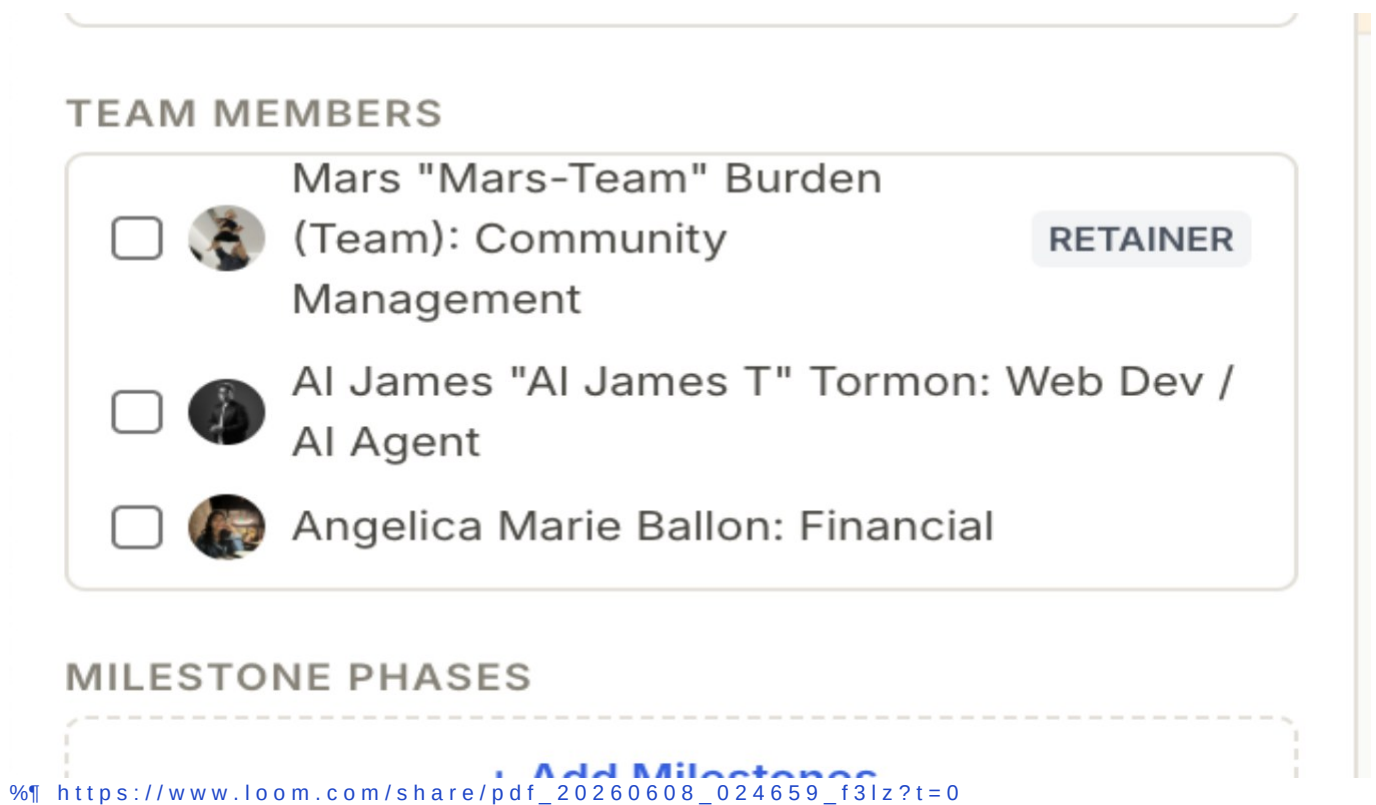

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Team members marked as inactive must not appear in any dropdown list of team members across the site. This rule must be applied globally, not just on the Projects page Create Project panel.

Screenshots (1)

Screenshot — Image 1

Projects: Add AI auto-fill functionality to Create Project panel

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The Create Project panel needs the same AI auto-fill capability as the Create Task panel. The AI prompt must be tailored to project-specific fields including team members, project gravity, and point manager — which differ from task creation fields.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Tasks: Fix duplicate tasks being created in Create Task panel

Timestamp:

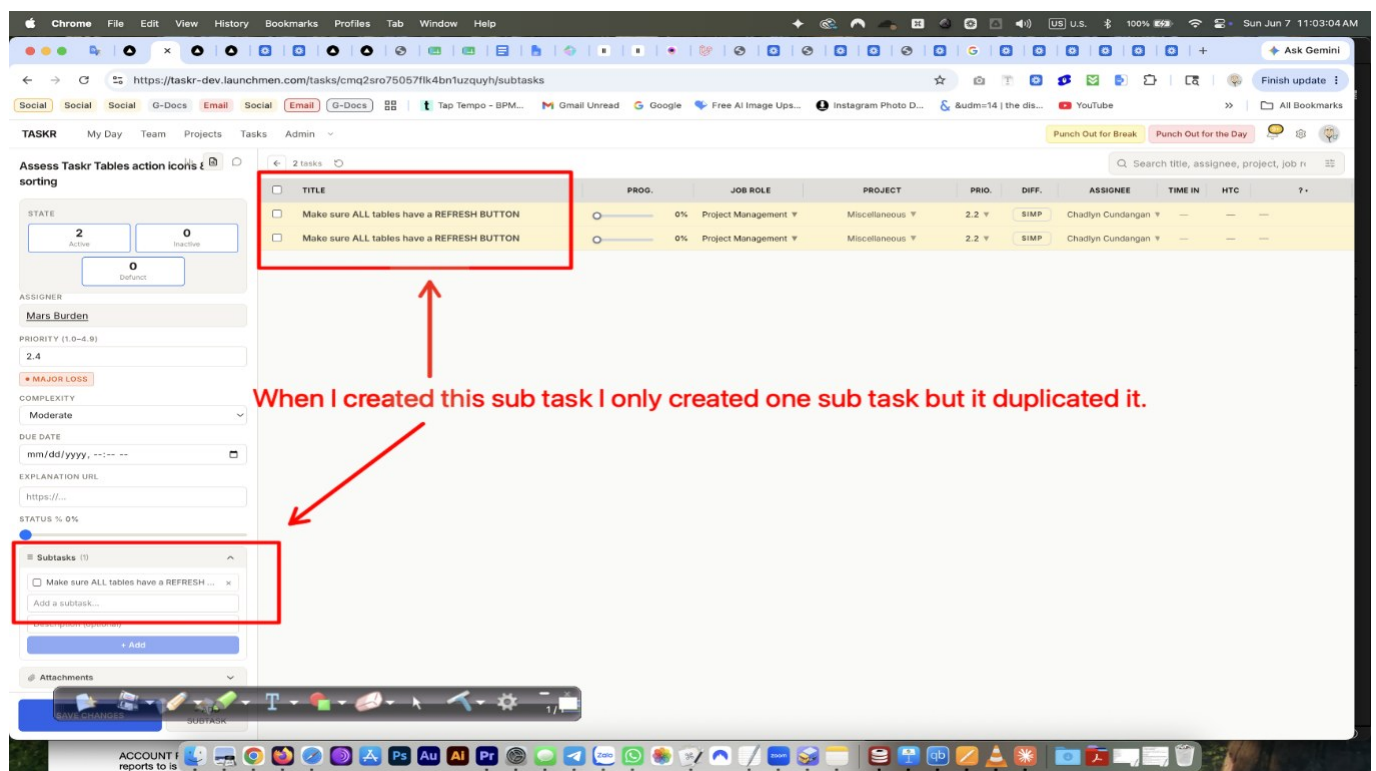

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Some tasks created through the Create Task panel are duplicating. This bug must be identified and fixed so that each task creation action results in exactly one task being created.

Screenshots (1)

Screenshot — Image 1

https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Tasks: Fix persistent Save button and subtask count in edit panel

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

On the task edit panel, the Save button should not persist after being clicked. Additionally, the number of subtasks is displaying incorrectly when accessing the subtask list from a team member's My Day view. Both issues need to be resolved.

Loom: <https://www.loom.com/share/527e338cf7934edd958d1b5a334c683c>

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

My Day: Add repeating task functionality with daily/weekly/monthly intervals

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

Tasks must be able to be set to repeat at regular intervals — daily, weekly, or monthly — with a timed schedule. This recurring task feature needs to be accessible from the My Day view.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Tasks: AI auto-rename task titles exceeding 50 characters

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

No task title should exceed 50 characters. AI must automatically rename titles that are too long to fit within the limit. The original full title should be placed at the top of the task description so no information is lost.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Admin: Allow bulk approval of multiple pending projects

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

An authorized user must be able to select multiple pending projects at once and approve them all in a single action. Currently only individual project approval appears to be supported.

%https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Admin: Fix incorrect pending projects count on Pending Projects tab

Timestamp:

Loom Link: https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Description:

The Pending Projects tab is showing an incorrect count of projects pending approval (e.g., showing 19 when only 2 are pending). The count must be corrected to reflect the actual number of pending projects.

Full Transcript

- [p1] ACCOUNT PAGE: "Daily" should not be a job role that appears on the drop-down for setting up someone's initial team member account and it shouldn't appear anywhere else because no one is doing daily items because daily is not actually a job role.
- [p1] JOB ROLES: why can't I edit tasks when clicking on them from the job page?
- [p1] PUNCH IN/PUNCH OUT: even when I'm logged in through an incognito window I still get logged out automatically which should not be happening.
- [p2] PROJECT PAGE: a team member can only see the projects that they are involved in. They should not be able to see other projects on the list. Even if they're involved in project but don't have any tasks that they can still view it. But that needs to be assigned by the person who created the project or by an admin or an executive.
- [p3] PROJECTS: the name of the project needs to be reflected over in the stats section when someone clicks on the project because otherwise the stats are out of context.
- [p3] PUNCH IN/PUNCH OUT: it's been asked for several times that when the team
- [p4] member stays past their logout time they need to be asked what manager admin or executive authorize them to stay longer. A name needs to be selected from the list of managers, admin and executives or the team member needs to just say that they forgot to log out. That then needs to go into their report of their activities and actions that go against their bonuses.
- [p4] ACCOUNT INFO: When the user is in the payment account portion of their account set up, currently they are unable to click the "cancel" button and must click the X button in the upper right hand corner. The cancel button in the lower right hand corner does not seem to function to close the wi
- [p5] MY DAY: "Tasks in review" count is inaccurate. Fix it to match the actual number of tasks in review.
- [p5] TASKS: add the functionality of the user can drag and drop a task into a super task to make it a subtask. That means each task should probably have a three dot
- [p6] vertical icon the way anything that you can drag drop generally has.
- [p6] +++++
- [p6] ACCOUNT PAGE: If the team member doesn't fill in the "goes by" field then their name will always be displayed as their given name and the initial of their family name so Michael Allen Rigby would be listed as Michael R, by default. If however the team member chooses "Mike" as their "goes by" designation then that would fill in and be displayed across the site however if their "goes by" is too generic it would need to say Mike R. So, AI needs to detect if they have a ubiquitous name that would need a an additional designation to make it clear who is who and no one can go by a name that somebody else already has in the system it's first come first serve. PAY/COMP: Choose the compensation model (projects, regular hourly, retainer, salary); Choose the hold back amount/frequency/milestones
- [p6] ACCOUNT: All team members have two modes Quickstart/full profile completion. Their first payment cannot be authorized until they fill out all of their information including adding an avatar
- [p6] All team members must have POTENTIAL MISSPELLINGS of their name added by the admin or a manager, because of transcriptions being inaccurate and misunderstanding what is being the possible miss spellings would be a label so if someone's name is let's say URE the system might see that is YURI or URI so those two designations would need to go into the system so that the system has better odds of interpreting a transcribed or potentially human misspelled name and uses the correct name of the team member or at least suggest it.

Transcript (continued)

- [p6] PUNCH IN/PUNCH OUT: System should not punch the person out automatically.
- [p6] +++++
- [p6] TASKS: right now the progress column is overlapping the number with the progress bar. That's happening when the column is resized and that needs to be fixed.
- [p7] TEAM: If a team member is inactive, alerts related to finishing their account should NOT be displayed.
- [p7] +++++
- [p7] TEAM: The team member's compensation type should NOT be in the FINANCIAL SECTION. It's not something that the FINANCIAL MANAGER SETS. An ADMIN can set it. So it needs to go into the RESPONSIBILITIES section.
- [p8] +++++
- [p8] TEAM: The currency list needs to be searchable and written in a better manner, based on the country's name. Nearly NO ONE will know what most countries' currency is called. For instance, nearly NO ONE will know that the Filipino Peso is named PHP. They will simply type in Filipino (which is wrong) and then they will NOT find it and they will need to spend time going to LOOK UP THE NAME. This is a sophomoric VERY JUNIOR DEVELOPER way of building this dropdown. LEVEL UP
- [p8] +++++
- [p8] GLOBAL: All tables need to have a table refresh icon in the PANEL B, the action bar
- [p9] +++++
- [p9] PUNCH IN/OUT: A user who continues past their logout time should not be prevented from staying logged in. They just have to declare who authorized it and then a message goes to the person they say authorized them to remain logged in and it stays on the list until that person acknowledges that they did in fact authorize that team member to remain logged in past their assigned logout t if the manager or admin who was claimed to have authorized the team member to stay logged in did not in fact authorize it and they mark the notification as "didn't authorize" it goes up to the admin or executive that they report to.
- [p10] +++++
- [p10] PUNCH IN/OUT: Wrap up Loom form must contain and actual Loom video link.
+++++
- [p11] PUNCH IN/OUT: LAST TIME ASKING FOR THIS ---- Once a user clicks the button after entering all their HTC estimates, they should NOT be made to review them again before logging in. They should be taken straight to the FINALIZE PUNCH IN step. All their tasks should just be on a scrollable table and they just need to fill in the ones that are marked red and then they're taking straight to the finalize step instead of this extra step. And the table should look exactly like a regular task cable it should just have an indication of all the items that still need an HTC estimate added. Also, the list of tasks is accurately displaying because when I actually logged in you can see that there was only one task with no tasks that were unrevealed or anything.
- [p12] +++++
- [p12] PROJECTS: This example is from the PROJECTS page, however, it's a GLOBAL NOTE that should be applied SITE WIDE. Every team member's name should be displayed as their "goes by", if they have one. Otherwise, it should be displayed as thei GIVEN NAME, plus the initial of their family name. So Mars "Mars" Burden, would be Displayed as Mars.
- [p12] +++++
- [p12] MY DAY: PRIORITY 1.4 - On tasks marked as completed, still in review, why is it that when an admin or manager selects 50 tasks and VERIFIES that they are

Transcript (continued)

[p13] complete, the entire checked group does NOT get removed from the list? ALL TASKS CHECK MARKED AND VERIFIED AS COMPLETE SHOULD BE SENT TO THE "VERIFIED AS COMPLETE" LIST as soon as the Manager/Admin/Executive clicks the THUMBS UP ICON.

[p13] WATCH THIS ENTIRE LOOM: <https://www.loom.com/share/a2184e59651d471bb6a8e67d0755a6d7>

[p13] +++++

[p13] The admin dropdown menu needs all the HIGHLIGHTED items UNHIGHLIGHTED unless they are hovered over. This is an error.

[p13] +++++

[p13] MY DAY: The default sort order for tasks marked by team member as COMPLETE (without user selecting it from the MAGIC COLUMN) should be DATE/TIME COMPLETED. So, when the manager clicks the SHOW TASKS IN REVIEW button at the bottom of the MY DAY TASK TABLE, when they appear, the tasks should be in ORDER MOST RECENTLY MARKED AS COMPLETE by the team member who completed them.

[p13] +++++

[p13] ADMIN: PRIORITY 1.7 - All tasks on the ALL listed needs to have SORT and

[p14] ACTION ICON function, just like ALL tables. Ask Chad for list.

+++++

MY DAY: The PRIORITY NUMBER input needs to be adjusted so that it can be entered manually as a whole number or a decimal. Right now nothing can be type it, only the up/down arrow can change the number.

[p14] +++++

MY DAY: This should NOT be possible. ALL USERS MUST assign an HTC before

[p15] they can mork progress on a task.

[p15] +++++

MY DAY: Thumbnails of images and attached documents or videos need to appear in the description hover popover.. This needs to happen on ALL tasks on ALL tables, not only on the MY DAY table.

[p16] +++++

[p16] PROJECTS: on any drop-down list of team members team members who are designated as "inactive" should not appear. In the screenshot that's included it's clear to see that AI who was a developer we were working with who is no longer part of the team and is in active is still on the list in the Create Project panel on the projects page. This rule needs to be global across the entire site for any drop downs with team members and not strictly on the projects page.

[p17] +++++

[p17] PROJECTS: the CREATE PROJECT panel needs the same functionality to fill in the form based on the CREATE TASK panel on the TASKS page. The prompt for it needs to be different though because it's looking at different things from the tasks creation process including choosing team members so team member names need to be estimated or guest by the app as well as the gravity of the project and the point manager which are not items found in a task. Observe and compare differences between the CREATE TASK panel and the CREATE PROJECT panel so that the AI prompt that generates the form field information is accurate based on the characteristics and informational elements related to a project versus a task.

[p17] +++++

[p17] TASKS: fix the error where some tasks created within the create task panel or duplicating.

Transcript (continued)

[p18] +++++

[p18] TASKS: on the task edit panel for existing task the same button should not stay at the bottom after it has been clicked and also the number of tasks is displaying incorrectly when coming into the sub tasks list from a team members MY DAY view. This needs fixed as well. See the loom video: <https://www.loom.com/share/527e338cf7934edd958d1b5a334c683c>

[p18] +++++

[p18] MY DAY: Tasks need to be able to be repeated at regular intervals...TIMED and set to DAILY, WEEKLY or MONTHLY.
Priority 1.4

[p18] +++++

[p18] TASKS: A.I. needs to rename titles over 50 characters. There should be NO TASKS with TITLES over 50 characters. When it rewrite the name to fit into the 50 character limitation it should put the previous name at the top of the description. That way it doesn't get lost. Priority 2.1

[p18] +++++

[p18] ADMIN: an authorized user needs to be able to select multiple pending projects and approve them all.

[p19] +++++

[p19] ADMIN: On the Pending Projects tab, the correct number of projects pending approval needs to be displayed right now it is completely wrong. For instance there are two projects still pending approval and it says there are 19. See the

[p19] screenshot.

[p19] +++++

[p19] ACCOUNT INFO: Phone number is NOT required to start the account. It IS a required piece of information to receive the FIRST payment for an invoice.

[p20] +++++

[p20] ACCOUNT INFO: there should be no need to re-verify password unless the user has just entered a new password. In a screenshot I did not change my password. I just opened the section and now it's demanding that I verify my password when I click the DONE button. If the password is already chosen then there should be a separate button to activate "change password".

[p21] +++++

ACCOUNT INFO: The schedule times need to be expressed with the day of the week in parentheses after the time, i.e....
9:00AM (Monday: split shift part one start) to 1:00PM (Monday, split shift part one end) in the case where there is a split shift.
If there is no split shift, it would just be expressed as...
9:00PM (Monday, shift start) to 1:00AM (Tuesday: shift end)

Video Summary

This document contains comprehensive feedback on a workforce management and task tracking platform. The feedback covers multiple modules including account setup, job roles, punch in/out timekeeping, projects, tasks, team management, and a "My Day" dashboard. The overall nature of the feedback is a mix of bug reports, feature requests, and UI/UX improvements across the platform.

Critical, blocking issues include: the automatic logout bug in punch in/out (happening even in incognito mode), the non-functional cancel button in account payment setup, inaccurate task counts in "My Day," overlapping progress column display in tasks, and the punch in/out workflow requiring multiple review steps. Nice-to-have improvements include the currency dropdown search enhancement, adding drag-and-drop subtask functionality, implementing table refresh icons globally, and name display standardization across the platform.

These tasks appear to be distributed across multiple teams based on their focus areas: the Account/Onboarding team (account page issues, profile completion, name handling), the Engineering/Backend team (punch in/out bugs and authorization workflow), the Frontend/UI team (display bugs, column overlapping, dropdown functionality), the Product/Tasks team (task management features and "My Day" dashboard fixes), and the Admin/Permissions team (role-based access and visibility controls on projects).

Task Summary Table

Title	DESC.	Project	Client	Area	Assignee	Priority	Complexity	Type	Explanation URL

Job Roles: Enable task editing from job roles page	Fix the issue where clicking on a task from the Job Roles page does not allow the user to edit it. Tasks should be editable when accessed from this page.	Taskr Pr. 12: Job Roles (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Punch In/Out: Prevent auto-logout on incognito sessions	Fix the bug where users are automatically logged out even when using an incognito window. Users should remain logged in during active incognito sessions without being auto-logged out.	Taskr Pr. 10: Punch In / Punch Out (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Projects Page: Restrict project visibility to assigned members	Team members should only see projects they are involved in on the Projects page. Viewing rights must be assigned by the project creator, an admin, or an executive, even if the team member has no active tasks in that project.	Taskr Pr. 04: Projects (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Projects: Display project name in stats section	When a user clicks on a project, the project's name must be reflected in the stats section. Without the name, the stats are shown out of context and are not meaningful.	Taskr Pr. 04: Projects (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Punch In/Out: Prompt authorization when staying past logout time	When a team member stays past their scheduled logout time, they must be prompted to select the manager, admin, or executive who authorized them to stay, or declare they forgot to log out. This declaration should be logged in their activity report and affect bonus calculations.	Taskr Pr. 10: Punch In / Punch Out (LaunchMen)	LaunchMen	Web Dev: New Feat./ Func.	DEV HOLDING TANK	2.0	COMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account Info: Fix non-functioning cancel button in payment setup	The 'Cancel' button in the payment account portion of account setup does not function and does not close the window. Users are forced to use the X button in the upper right corner instead. The cancel button must be fixed to properly close the dialog.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
My Day: Fix inaccurate 'Tasks in Review' count	The 'Tasks in Review' count displayed on the My Day page is inaccurate. It must be corrected to match the actual number of tasks currently in review status.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Tasks: Add drag-and-drop to convert task into subtask	Allow users to drag and drop a task onto a super task to make it a subtask. Each task should display a three-dot vertical drag handle icon to facilitate this drag-and-drop interaction.	Taskr Pr. 05: Tasks (LaunchMen)	LaunchMen	Web Dev: New Feat./ Func.	DEV HOLDING TANK	3.0	COMP	Nice-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Title	DESC.	Project	Client	Area	Assignee	Priority	Complexity	Type	Explanation URL
Account Page: Set default display name format and uniqueness rules	If a team member does not fill in the 'Goes By' field, their name should default to given name plus family name initial (e.g., Michael R). If 'Goes By' is set but too generic, append the family initial. AI should detect duplicate/ambiguous names, and no two team members can share the same 'Goes By' name — first come, first served.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	2.0	COMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account Page: Add compensation model and holdback setup fields	Add fields to the account setup for choosing the compensation model (projects, regular hourly, retainer, or salary) and configuring the holdback amount, frequency, and milestones.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account: Implement Quickstart and full profile completion modes	All team members must have two modes: Quickstart and full profile completion. First payment cannot be authorized until all information is filled out, including adding an avatar.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account: Add potential name misspellings field for transcription accuracy	Admins or managers must be able to add potential misspellings of a team member's name to their account. The system should use these alternate spellings to better interpret transcribed or human-misspelled names and suggest the correct team member.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	3.0	MOD	Nice-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Punch In/Out: Remove automatic system punch-out behavior	The system should not automatically punch a team member out. Remove this automatic logout/punch-out behavior so that users remain logged in until they manually punch out or go through the authorization flow.	Taskr Pr. 10: Punch In / Punch Out (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	1.5	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Tasks: Fix progress bar overlapping number when column resized	In the Tasks table, the progress column overlaps the numeric value with the progress bar when the column is resized. This visual bug needs to be fixed so both the number and bar display correctly at any column width.	Taskr Pr. 05: Tasks (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Team: Suppress account-completion alerts for inactive members	If a team member is marked as inactive, alerts reminding them to finish their account setup should not be displayed. These alerts are irrelevant for inactive members and should be suppressed.	Taskr Pr. 03: Team (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Team: Move compensation type from Financial to Responsibilities section	The team member's compensation type is currently in the Financial section, but it should be in the Responsibilities section because it is set by an Admin, not a Financial Manager.	Taskr Pr. 03: Team (LaunchMen)	LaunchMen	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Title	DESC.	Project	Client	Area	Assignee	Priorit y	Compl exity	Type	Explanat ion URL
Team: Make currency list searchable by country name	The currency dropdown must be made searchable and organized by country name rather than currency code. Most users will not know currency codes (e.g., PHP for Filipino Peso) and the current implementation is not user-friendly.	Taskr Pr. 03: Team (LaunchMe n)	LaunchMe n	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Global: Add table refresh icon to all Panel B action bars	Every table across the entire site needs a refresh icon added to Panel B (the action bar). This should be applied globally to all tables, not just specific pages.	Taskr Pr. 00: Global/ Menu Bar (LaunchMe n)	LaunchMe n	Web Dev: New Feat./ Func.	DEV HOLDING TANK	3.0	MOD	Nice-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Punch In/Out: Implement authorization flow and manager notification for overtime	Users who remain logged in past their logout time must declare who authorized them to stay. A notification is sent to the claimed authorizer and remains pending until they confirm or deny. If denied, the incident escalates to the admin or executive the team member reports to.	Taskr Pr. 10: Punch In / Punch Out (LaunchMen)	LaunchMe n	Web Dev: New Feat./ Func.	DEV HOLDING TANK	1.5	COMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Punch In/Out: Require actual Loom video link in wrap-up form	The Punch In/Out wrap-up Loom form must validate that an actual Loom video link is entered. The form should not be submittable without a valid Loom link.	Taskr Pr. 10: Punch In / Punch Out (LaunchMen)	LaunchMe n	Web Dev: New Feat./ Func.	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Punch In/Out: Skip HTC review step and go directly to Finalize Punch In	After a user enters all HTC estimates and clicks the button, they should NOT be shown a review screen. They should proceed directly to the Finalize Punch In step with all tasks on a scrollable table, highlighting only those needing HTC estimates in red.	Taskr Pr. 10: Punch In / Punch Out (LaunchMen)	LaunchMe n	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	1.1	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Global: Display team member names as 'Goes By' or Given Name plus initial	Site-wide, every team member's name should be displayed as their 'Goes By' name if set, otherwise as their given name plus the initial of their family name. This rule must be applied globally across all pages and tables.	Taskr Pr. 00: Global/ Menu Bar (LaunchMe n)	LaunchMe n	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
My Day: Remove verified-complete tasks from list immediately	When a manager/admin/executive selects multiple tasks and verifies them as complete via the thumbs up icon, all checked tasks should be immediately removed from the current list and moved to the 'Verified as Complete' list. Currently the group does not get removed.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMe n	Web Dev: Bug Fix	DEV HOLDING TANK	1.4	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Admin: Fix highlighted items in admin dropdown menu	Items in the admin dropdown menu are incorrectly highlighted by default. They should only be highlighted on hover, not permanently. This is a display/styling error that needs to be corrected.	Taskr Pr. 06: Admin (LaunchMe n)	LaunchMe n	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Title	DESC.	Project	Client	Area	Assignee	Priority	Complexity	Type	Explanation URL
My Day: Set default sort order for tasks in review to date/time completed	When the manager clicks 'Show Tasks in Review' on the My Day task table, tasks should appear sorted by the most recently marked-as-complete date/time by default. This sort order should apply without any manual selection.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMen	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Admin: Add sort and action icon functionality to all task lists	All task lists on the Admin page need sort and action icon functionality, consistent with all other tables in the system. Chad should be consulted for the complete list of required tables.	Taskr Pr. 06: Admin (LaunchMen)	LaunchMen	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	1.7	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
My Day: Fix priority number input to accept manual decimal entry	The priority number input field on My Day currently only changes via up/down arrows and does not accept manual keyboard entry. It must be updated to allow users to manually type a whole number or decimal value.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
My Day: Require HTC estimate before allowing progress on a task	Users must not be able to mark progress on a task unless an HTC (Hours to Complete) estimate has already been assigned. The system should block progress updates until an HTC value is set.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
My Day: Show image/document/video thumbnails in description hover popover	Thumbnails of attached images, documents, and videos must appear in the description hover popover. This behavior must be applied to all tasks on all tables site-wide, not just on the My Day table.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	3.0	COMP	Nice-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Projects: Hide inactive team members from all member dropdowns	Team members marked as inactive must not appear in any dropdown list of team members across the site. This rule must be applied globally, not just on the Projects page Create Project panel.	Taskr Pr. 04: Projects (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Projects: Add AI auto-fill functionality to Create Project panel	The Create Project panel needs the same AI auto-fill capability as the Create Task panel. The AI prompt must be tailored to project-specific fields including team members, project gravity, and point manager — which differ from task creation fields.	Taskr Pr. 04: Projects (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	3.0	COMP	Nice-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Tasks: Fix duplicate tasks being created in Create Task panel	Some tasks created through the Create Task panel are duplicating. This bug must be identified and fixed so that each task creation action results in exactly one task being created.	Taskr Pr. 05: Tasks (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	1.5	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Tasks: Fix persistent Save button and subtask count in edit panel	On the task edit panel, the Save button should not persist after being clicked. Additionally, the number of subtasks is displaying incorrectly when accessing the subtask list from a team member's My Day view. Both issues need to be resolved. Loom: https://www.loom.com/share/527e338cf7934edd958d1b5a334c683c	Taskr Pr. 05: Tasks (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0

Title	DESC.	Project	Client	Area	Assignee	Priority	Complexity	Type	Explanation URL
My Day: Add repeating task functionality with daily/weekly/monthly intervals	Tasks must be able to be set to repeat at regular intervals — daily, weekly, or monthly — with a timed schedule. This recurring task feature needs to be accessible from the My Day view.	Taskr Pr. 02: My Day (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	1.4	COMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Tasks: AI auto-rename task titles exceeding 50 characters	No task title should exceed 50 characters. AI must automatically rename titles that are too long to fit within the limit. The original full title should be placed at the top of the task description so no information is lost.	Taskr Pr. 05: Tasks (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	2.1	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Admin: Allow bulk approval of multiple pending projects	An authorized user must be able to select multiple pending projects at once and approve them all in a single action. Currently only individual project approval appears to be supported.	Taskr Pr. 06: Admin (LaunchMen)	LaunchMen	Web Dev: New Feat./Func.	DEV HOLDING TANK	2.0	MOD	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Admin: Fix incorrect pending projects count on Pending Projects tab	The Pending Projects tab is showing an incorrect count of projects pending approval (e.g., showing 19 when only 2 are pending). The count must be corrected to reflect the actual number of pending projects.	Taskr Pr. 06: Admin (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account Info: Make phone number optional until first payment	Phone number should not be required to start a team member account. However, it must be required before the first payment for an invoice can be processed. Update validation logic accordingly.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account Info: Remove password re-verification unless password was changed	The system currently demands password re-verification when the user clicks Done in the account section, even if no password change was made. Re-verification should only be required if a new password was entered. Add a separate 'Change Password' button for password updates.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: Bug Fix	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
Account Info: Display schedule times with day of week context	Schedule times in account info must include the day of the week in parentheses for clarity. For split shifts, each part should be labeled (e.g., 9:00AM (Monday: split shift part one start)). For standard shifts, the shift start and end day should both be indicated.	Taskr Pr. 01: Acct. Info (LaunchMen)	LaunchMen	Web Dev: Revis. Feat./Func.	DEV HOLDING TANK	2.0	SIMP	Need-to-have	https://www.loom.com/share/pdf_20260608_024659_f3lz?t=0
